

## Edmodo – Accessibility Information as of May 2016

Anyone who has any questions regarding accessibility should contact us here at [support@edmodo.com](mailto:support@edmodo.com).

If you are interested to know our current accessibility suggestions, please know that Edmodo is working towards 508 compliance and takes accessibility seriously. At this time, if students needs text converted to sound, the best option is to use the Edmodo iOS app and utilize the Voiceover function. Alternatively, using a screenreader with [edmodo.com/m](http://edmodo.com/m), our mobile site, works well too.

While our platform does not have a specific feature for text enlargement, we often encourage user to use the zoom on their browser window. You can enlarge the screen by clicking "command" and "+" (on Mac) or "cntrl" and "+" (PC).

If you have additional circumstances to address, please contact us and we will be happy to provide the best available solutions.
