Fixing the Scroll Bar in Grade Center

In this tutorial, you will learn how to:

- Make adjustments in your browser’s settings in order to see the scroll bar in Grade Center

Windows 7

1. Right click on your desktop and click Personalize.

2. Click on Window Color.
3. Click Advanced appearance settings.

4. In the Item drop box, select Scrollbar.
5. In the Size box, change the number to 19 and click Apply, then OK.
**Windows Vista**

1. Go to the Control Panel.
2. Click on Personalization.
3. Select the Window Color and Appearance option.
4. Click on the Advanced button.
5. Select the Scroll Bar from the item drop down list.
6. Change the setting to 19.
7. Submit.

**Windows XP**

1. Go to the Control Panel.
2. Click on Display Properties.
3. Click on the Appearance tab.
4. Select the Advanced button.
5. Select the Scroll Bar from the item drop down list.
6. Change the setting to 19.
7. Submit.

**Mac OS X - Apple**

1. Launch System Preferences, either from the Dock or from the Apple menu.
2. Once the System Preferences window opens, select the General preference pane.
3. The middle section of the General preference pane controls when scroll bars appear and a few additional scroll bar options.
4. To return the scroll bars to their pre-Lion functionality, select "Always" from the Show Scroll Bars options.
