Making Your Course Available or Unavailable to Students

Before your students can see your course, you must make it Available to them. Conversely, if you want to take down a course after the semester is over, or if you need to work on the course, you can make it Unavailable. This tutorial covers both processes.

In this tutorial, you will learn how to:
- Make Your Course Available to Students
- Make your Course Unavailable to Students

As always, make sure the Edit button is turned to ON in the upper right corner of your Blackboard.

Part 1 – Making a Course Available

1. In your Course Management Section, click on Customization, then Properties.
2. In Section Three, Set Availability, Select Yes.

3. Click Submit.

**Part 2 – Making a Course Unavailable**

4. Follow the same steps above, but in Section Three, Set Availability, click No.

5. Click Submit.

*If you have further questions, please submit a ticket to SCC E-Learning [here](#).*
