Online Tutoring Menu Link Tutorial

The way students and instructors access Smarthinking has changed. In the past, there was a link in all Blackboard courses, labeled “Smarthinking.” Beginning in the summer of 2015, the link has been updated, and the new link is called “Online Tutoring.” The Smarthinking link will no longer function.

When course materials are copied from a term prior to 2015SU, the Smarthinking link will come as well. You will need to remove the link labeled “Smarthinking”

**Note:** If you do not plan to copy a course from a previous semester into your new Blackboard course, the Online Tutoring link will be present and will work with no further action on your part.

In this tutorial, you will learn how to:

- Remove the menu item labeled “Smarthinking” in your Blackboard course.

As always, make sure the Edit button is turned to ON in the upper right corner of your Blackboard course page.

1. Locate the “Smarthinking” link in the menu (it will be in the upper left corner of your course). Click on the action link (button with the chevron arrows) next to “Smarthinking.”
2. Click “Delete.”
3. In the resulting dialog box, select “Delete content.”

4. Click “Delete.”
