---

**Law Enforcement & First Response Tactical Casualty Care. LEFR-TCC** teaches public safety first responders including police, other law enforcement officers, firefighters, and other first responders the basic medical care interventions that will help save an injured responder's life until EMS practitioners can safely enter a tactical scene. It combines the principles of PHTLS and TCCC, and meets the recommendations of the Hartford Consensus document and TECC guidelines.

Th, 5/12 8a-5p Jerry Sutton Public Safety Training Center Room 105

### TCCC (Tactical Combat Casualty Care) Course

The Tactical Combat Casualty Care (TCCC) course introduces evidence-based, life-saving techniques and strategies for providing the best trauma care on the battlefield. NAEMT conducts TCCC courses under the auspices of its PHTLS program, the recognized world leader in prehospital trauma education. NAEMT's TCCC courses are fully compliant with the Department of Defense's Committee on Tactical Combat Casualty Care (CoTCCC) guidelines. It is the only TCCC course endorsed by the American College of Surgeons. Course will be held at the Jerry Sutton Public Safety Training Center on dates to be determined. Course fee of as \$15.00 to the NAEMT for certification as well as registration fee of \$70.00 if not exempt.

TBD 8a-5p both dates Jerry Sutton Public Safety Training Center Room 105

---

### Critical Care Paramedic continuing education.

Friday, 5/09 9a-5:30p Jerry Sutton Public Safety Training Center Room 105

---

**EMS Technical Scope of Practice Evaluations:** Call for appointment.

Continued.....

**Advanced Medical Life Support. AMLS** is an education program of the National Association of Emergency Medical Technicians (NAEMT). The program is endorsed by the National Association of EMS Physicians (NAEMSP). This program is for all levels of healthcare practitioners committed to providing quality care for patients in medical crisis. AMLS emphasizes the use of scene size-up, history, interactive group discussion on potential treatment strategies and physical exam to systematically rule out and consider possibilities and probabilities in treating patients' medical crises. The course is designed to combine interactive scenario-based lectures with hands-on physical assessments of patients.

M-T 6/09-6/10 8a-5p Jerry Sutton Public Safety Training Center Room 105

---

**Emergency Pediatric Care. EPC** provides a unique approach to pediatric emergency care, offering assessment techniques that can help EMS practitioners rapidly and accurately assess pediatric patients to determine which situations may be life-threatening and require immediate intervention. In addition to providing current knowledge and training in proper treatment modalities, the course incorporates family centered care throughout all scenarios. Training encompasses lectures, hands-on skills practice and small group critical thinking discussions. EPC is for all emergency medical technicians and paramedics committed to providing quality care for pediatric patients.

M-T, 6/23-6/24 8a-5p Jerry Sutton Public Safety Training Center Room 105

---

### **PHTLS (PreHospital Trauma Life Support)-Combined Provider**

Pre-Hospital Trauma Life Support. PHTLS is developed by the National Association of Emergency Medical Technicians in cooperation with the American College of Surgeons Committee on Trauma. The Pre hospital Trauma Life Support (PHTLS) course is a unique continuing education program created in recognition of the real need in EMS education for additional training in the handling of trauma patients. This indispensable program is designed to enhance and increase knowledge and skill in delivering critical care in the pre hospital environment.

Th-F, 7/10-7/11 8a-5p Jerry Sutton Public Safety Training Center Room 105

---
